Re: Our File 582-509B Holland, PM 462

Dear Bill:

We have received an Official Action in the above-identified case and enclose a photoprint copy of the same.

You will note the response must be filed not later than September 25, 1972 and accordingly, we would like to have your instructions by June 1, 1972.

The Examiner has indicated that the application probably would be accepted if the claim is changed to conform it with that contained in the corresponding Swedish case. We would propose that this be done.

We would like to have your comments about the definition of "Magnesium and calcium cross-links".

Very truly yours,

George J. Brandt, Jr.
